

Put the Power of Gamification in YOUR hands.

It wasn't long after gamification was first introduced to the learning community that it became the hottest buzzword around. And with good reason. **Games have proven critical to the success of every learning initiative**, in both virtual and live training, for driving home key learning concepts.

Red Nucleus has always offered a variety of interactive games, each uniquely suited to address different training goals including **concept reinforcement, confidence assessment, and knowledge retention**. Now we have a solution that puts the power of gamification at your fingertips.

RCADE

GAME AUTHORIZING PLATFORM

INTRODUCING RCADE

Rcade gives YOU the power to:

- Invest once but implement gamification across multiple divisions, brands, and initiatives
- Author, edit, and categorize game questions
- Publish any game with ease, as many times as you'd like
- Keep tabs on the progress of your players and teams via reporting and real-time scoreboards and leaderboards

RCADE
 GAME LIBRARY QUESTION LIBRARY FRANCHISE
 6 QUESTIONS (13 EASY, 9 MEDIUM, 3 HARD, 1 BET)
 Please fill in your game details below. This information will be used to identify your game.

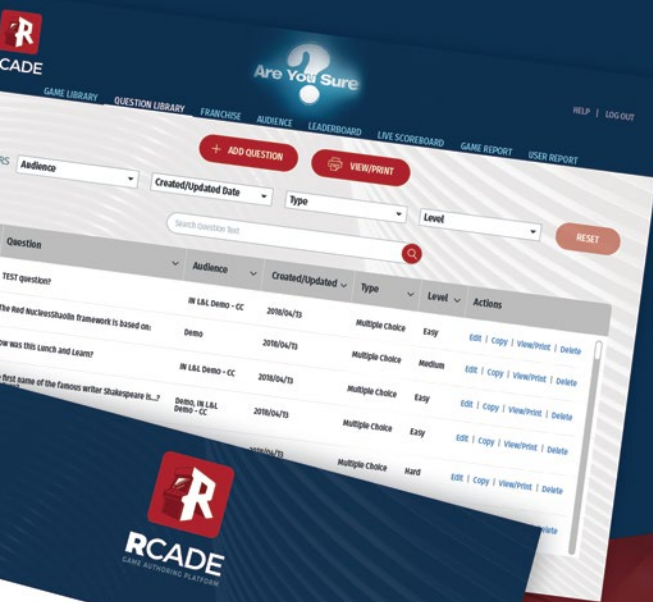

RCADE

GAME AUTHORIZING PLATFORM

Rcade is a game authoring platform designed to provide your training teams with a powerful and flexible learning reinforcement tool. Rcade offers a new level of ownership for administrators while enabling learners to access and play games as an individual, compete against their peers, or compete as a team in a live or virtual setting.

KEY FEATURES

- Self-service question & game authoring
- Shared question library
- SSO capability
- Unlimited access to all Rcade games
- Real-time leaderboards
- Robust game & question level reporting
- Web-based administrative portal
- Hosting & training included
